

WE WHITSON ENGINEERS

Whitson Engineers is an award-winning Civil Engineering and Land Surveying firm serving the Monterey Bay, Santa Cruz and Los Angeles areas. We are committed to creating compelling and innovative results for our clients, improving the communities in which we live. We provide general civil engineering services to both the public and private sector. Our projects are diverse in size and scope, but unified by quality, consistency and design. We are committed to our long-term relationships with clients and employees, and we continually strive to develop new partnerships.

Pride and passion in our work is what drives our team of professionals and collaborative work environment. We foster a culture of continuous growth and learning. Offering a competitive salary/benefits package, including employer paid health care, dental and vision insurance coverage for employee and dependent(s), employee owned life insurance policy, health savings account employer contributions, 401 (k) employer match and profit sharing plans, as well as paid vacation, sick leave, and holidays. We value challenging work and balanced lives; we make every effort to offer both the maximum professional growth and policies that promote healthy personal time.

We are seeking applicants for the following positions in our Monterey office:

ASSOCIATE CIVIL ENGINEER

Job Summary

Actively participates in the design and technical activities required on a wide range of public and private civil engineering projects. Involved with engineering plan preparation, solving design problems, and other design related tasks. Coordinates and communicates directly with other members of the project team, clients and public agencies.

The Ideal Candidate Would Have:

- BS Civil Engineering
- 2+ years' experience in design and different phases of land development and/or public works projects
- Proficiency in AutoCAD Civil 3D.
- Strong, team-oriented work ethic.
- Multi-tasking capabilities.
- Good organizational skills.
- Excellent verbal and written communication abilities.

What You'll Do:

- Design and prepare engineering plans.
- Prepare project technical reports and specifications.
- Review project design criteria.
- Gather data and design information needed for project design.
- Perform design calculations.
- Coordination with clients and public agencies.
- Prepare project estimates.

- Coordinate with other members of the design team and report directly to a Project Manager or Principal-in-Charge.

Application Process:

Interested candidates are encouraged to send their letters of interest and resumes to:
